P - 4 August
Materials - 15 August

28 July 1983

MEMORANDUM FOR: Acting Chief, Community Counterintelligence Staff, ICS

FROM: Executive Assistant to the DDCI

SUBJECT: Various Efforts Relating to Counterintelligence Analysis

Continuing our dialogue on our favorite topics:

1. DCI Committee on Hostile Intelligence Threat Analysis

   - Your draft terms of reference for this group is fine.

   - The proposed membership, with a couple of exceptions, is too low a level. The DDCI will ask for the appropriate level at this week's NFIB. We will keep you informed.

2. DCI Study of Counterintelligence Analysis Efforts

   - Your draft terms of reference are okay as far as they go, but they are incomplete.

   - The DDCI would like you to address all of the questions raised by the SSCI, including:

25X1

     - How can the security of vital systems be tested and protected?

   - The DDCI would appreciate your forwarding revised terms of reference for approval soon to facilitate your getting inputs by September.

   - He has also decided that you should forward the study to the new DCI Committee for review and validation. The Committee will then forward it to the new DCI Commission, for its review and comments. Both sets of comments will then be forwarded to the DCI.

25X1

Approved For Release 2008/01/22 : CIA-RDP86B00885R000100030055-3

3. DCI Advisory Commission on Counterintelligence Analysis

- I would appreciate your help in compiling a data base for this group to give them a feel for our current effort.

- Would you please provide me by 15 August four copies of any relevant recent studies on counterintelligence analysis. Papers done for the SIG(I) come to mind. I have one copy of NSSD 2-82, your March 1982 study on Hostile Intelligence Services, and your July 1982 study on Capabilities Against the Hostile Intelligence Threat.

Thanks,

[redacted] 25X1
